Analysis of Change in Financial Condition:

(Exhibit B)

An analysis of the change in financial condition of the Town during the year is made in Exhibit B, with the factors which caused the change indicated therein. These were as follows:

Increases in Surplus

Net Budget Surplus	$ 2,515.82	
Long Term Notes Paid	5,000.00	
Tax Collector's Excess Credits	19.96

As indicated by the budget summary (Exhibit D), a net unexpended balance of appropriations of $2,414.24, plus a net revenue surplus of $101.58, resulted in a net budget surplus of $2,515.82.

Summary of Receipts and Expenditures:

(Exhibit E)

A summary of receipts and expenditures for the fiscal year ended December 31, 1952, made up in accordance with the uniform classification of accounts, is included in Exhibit E. Proof of the Treasurer's balance as of December 31, 1952, is indicated in Exhibit F.

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipts and disbursements of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with

reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records.

GENERAL COMMENTS

Current Surplus:

It is noted that the current surplus(excess of total assets over current liabilities) increased from $11,517.78 to $13,940.66, during 1952, as shown by the following statement:

	Dec. 31,'51	Dec. 31, '52
Total Assets	$ 33,965.02	$39,775.35
Total Current Liabilities	22,447.24	25,834.69
Current Surplus	$ 11,517.78	$13,940.66

Town Treasurer's Surety Bond:

The amount of the Town Treasurer's surety bond for 1952 was $5,000.00. Inasmuch as the total funds handled by the Treasurer during 1952 amounted to just under $133,000.00, it is recommended that the surety bond be increased to $10,000.00 in 1953.

Conclusion:

The accounts of all town officials which we examined were found in good order and the accounting procedure conformed to prescribed methods.

The provisions of Section 31, Chapter 211, of the Laws of 1939, required that this report or a summary of its essential features shall be published in the next annual town report.

We extend our thanks to the officials of the Town of Holderness for their assistance during the course of the audit.

Yours very truly,

HAROLD G. FOWLER,, Director

REPORT OF SUPERINTENDENT OF SCHOOLS

Our Centralized School

The year 1953 marks a milestone in the history of education in Holderness, for we expect it will be the last year of the old one-room school.

One by one the districts of the state are adopting the plan of centralizing schools, until this year there are only 41 one-room schools in use in New Hampshire. The educational advantages of a centralized school are generally considered to be worth the cost. I am convinced that the people of Holderness will be justly proud of their new school which will be open next September.

School Marks

The topic, "Methods of Reporting Pupil Progress," has received much attention in teachers' meetings and parent-teacher groups throughout this supervisory union during the past year. An individual conference between a teacher and a parent (sometimes the pupil also being present) seems to be the most satisfactory method of reporting, especially for the lower grades.

In November, a three-day workshop of teachers and parents on this subject was held at Ashland. As usual, many questions were raised and few answered at these meetings; but several points seemed to be generally accepted. A few of these are stated below:

(1) School marks (either "A-B-C-D" or percentage) are undesirable because they emphasize unfair competition and create fear of failure.

(2) A pupil's growth in learning involves so many factors that it is impossible to reduce it to any single mark, either letter or number.

(3) A mark of C may be given by one teacher for a certain piece of work, whereas another teacher

might give a mark of A for the same. No clear definition of marks has ever been made that can overcome this difference of opinion.

(4) Parents seem to favor having more detailed reports, covering a pupil's growth in character, good work habits, etc., even though the reports do not come so often.

(5) Parents are becoming accustomed to the idea of discussing with the teacher the progress of their children. No longer do they dread the teacher's coming, or meet her at the door with the question, "What is wrong now?" A friendly visit to the school by each parent is coming to be accepted as regular routine.

A School Lunch Program

The plans for our new school building include a kitchen for serving a daily hot lunch, but we are not sure that there will be money enough for the necessary kitchen equipment. It may be necessary to postpone for one year this part of our program.

The effect of a nourishing warm meal in place of cold sandwiches at noon is more beneficial than most people realize. It not only contributes to better health, but makes for better concentration and higher marks in school subjects.

I hope that the district will approve an item in the budget to care for the cook's salary, and that by some means funds may be secured to provide a stove and whatever other equipment may be needed to start out with a good lunch program the first term.

Respectfully submitted,

ALMON W. BUSHNELL,

Superintendent

CENTRAL ELEMENTARY SCHOOL

Holderness, N. H.

BUILDING COMMITTEE REPORT

1952

A new Central Elementary School Building Committee was created at the Annual School District Meeting, March 8, 1952 by vote as follows:

"That a commission composed of the School Board, one of the Selectmen and three persons to represent the General Public (they to be elected from the floor) carry out such action as is taken under Article 8, and that the former School Building Committee appointed two years ago be herewith dismissed." (Article 8 authorized the appropriation of a sum not to exceed $115,000 to purchase land and to construct and equip a central elementary school.)

After passage of the above motion, Messrs Edward A. Eaton, Dr. William M. Thomson, Sr., and Harold A. Webster were elected to represent the General Public. Ernest L. Chamberlain was appointed to represent the Selectmen. The School Board members were Mrs. Nellie J. Calley, George Plant and Arthur Howe.

Another motion bearing directly upon the responsibilities of the Building Committee was also passed at the same School District Meeting, March 8, 1952, as follows:

"That the building be erected on the site of the Town Hall or adjacent thereto if Article 8 be voted affirmatively."

The first of many subsequent meetings of the new Building Committee, all members being present, was held March 16, 1952, at the home of Mrs. Nellie J. Calley, Chairman of the School Board. Arthur Howe was elected Chairman of the committee and Edward A. Eaton, Secretary. Almon Bushnell, Superintendent of Schools, attended this as well as future meetings of the committee.

The committee retained Arthur Nighswander, Attorney of Laconia, N. H., as Counsel and the firm of Hudson & Ingram, Hanover, N. H., as Architects.

A review of all official actions taken relative to the organization of the new Building Committee and plans for the school raised serious doubts as to the legality of the motion locating the school "on the site of the Town Hall or adjacent thereto." This item had not been included in the warrant of the District Meeting at which the action was taken. However, the question of location for the school was a major issue with the voters. Accordingly this matter received most thorough consideration by the Building Committee. Investigation revealed:

1. The Attorney General's office, State Capitol, advised that, because the subject matter of the motion relative to the location of the school had not been included in the warrant of the meeting, therefore the vote was invalid.

2. The Town and the School Board are by law two separate entities, made so in order to be independent of each other with a view to the best possible administration of their own particular functions. Neither one is legally permitted to expend its funds for the other. Requests by one upon the other involving either finances or policies, would lead to most difficult, if not illegal complication, were they to be housed in the same building and under the authority of either one of the legal entities.

3. The land needed at the site of the Town Hall was not for sale and was only available by condemnatory proceedings.

4. Even if an act should be passed by the legislature whereby the Town would be allowed to convey its property to the School District, the Town, if it so proceeded, would have to secure other property for sheds, office space, etc.

5. The Grange, by a previous vote of the Town, has a right to meet in the present Town Hall "as long as the Grange exists."

6. A large number of taxpayers were opposed to demolishing the Town Hall.

Because of these complications the Building Committee deemed it best to give up the idea of tearing down the Town Hall and immediately sought another site, giving attention to property as nearly adjacent to the Town Hall as possible. Four of seven sites considered were given particular attention. This involved inspection by representatives of the State Departments of Education and of Health, as well as by members of the committee. In addition consultations were held with the owners of properties as to their availability and costs.

On May 19, 1952, at the seventh meeting of the Building Committee, it was voted:

"That the Building Committee recommends to the School Board that the School Board approve the Joubert-Howe site as the location for the Central Elementary School." (The Joubert-Howe site is approximately 4 acres of land at the southwest corner of Holderness Road and U. S. Route 3.)

This motion was passed by a vote of 4 to 2, one member of the Committee not voting.

The School Board did not approve this recommendation. Instead, by a vote of 2 to 1, the School Board selected the Blanchard property located east of the Holderness Road at a point south of Hard Hack Corner.

The above decision by the School Board was challenged by petition of the voters for a public hearing before the County Commissioners. The County Commissioners, in accordance with law, having held a public hearing, July 17, 1952, at the Town Hall in Holderness, located the school at the Blanchard site.

Besides the question of location for the school, much time and thought were given to financing. Seven banks and bonding houses presented bids for the purchase of $115,000 School District bonds. The award was made originally to the firm of Townsend, Dabney & Tyson of Boston, Massachusetts, the lowest bidder,

on the basis of a 2% twenty year amortization schedule. This firm later withdrew, and the School Board being the legal authority made a contract with F. W. Horne & Co., Concord, New Hampshire, for 2.20% bonds payable over a 20 year period. This firm had been second in consideration when the original bids were opened.

Shortly after the site had been determined, the Building Committee started negotiations for a search of deeds, surveying of land and the purchase of the same. Also a long series of conferences were initiated for the formulation of plans with the architects. Specifications call for a modern one-story, flat roofed, four school-room building with auditorium, office, kitchen and up-to-date heating, ventilating and plumbing facilities. Cinder blocks with brick exterior will be used throughout. An artesian well will supply the water. Interior furnishings such as floors, doors, cabinets, closet, hardware, lighting, etc., have received the most careful consideration with particular concern for the children and teachers.

Eleven firms from Massachusetts, New Hampshire and Vermont presented bids for construction of the building. These bids, opened publicly November 13, 1952, at the Town Hall, ranged in amounts from $109,-400 to $138,783. After due consideration the School Board awarded the contract to The Caron Construction Company, Inc., Manchester, New Hampshire, the lowest bidder at $109,400. 100% Performance and Statutory Bonds have been filed with the School Board. The contract calls for completion of the work by September 1, 1953. The work started December 12, 1952.

The purchase of approximately 10 acres of land for the playgrounds and roadway was made by the School Board at a cost of $1,800. In addition grateful acknowledgement is herewith recorded for the gift of approximately 3 acres of adjacent land by Mr. and Mrs. David W. Curry. It is anticipated that this land will be officially accepted at the next District Meeting. This gracious civic act on the part of our Tax Collector and his wife is deeply appreciated.

Specifications for the construction of a roadway 42 feet wide and approximately 450 feet in length from the Holderness Road to the site of the school building were drawn by H. D. Trojano, Surveyor of Plymouth, New Hampshire.

Four local contractors presented bids for this work, the award going to the lowest bidder, John M. Crafts, of Holderness.

Unfortunately provisions made for carrying excess water under the roadway did not prove adequate during the exceptionally severe storm late last December. The storm washed out about 20 feet of the new roadway. At this writing, engineers of the State Highway Department and the Division of Bridge Construction are investigating this situation with a view to making recommendations.

Mr. Roy Melanson has been most helpful in permitting passage across his property. The good offices of the Parent-Teachers Association have been extended by Mrs. Kenneth Craig, President, and Mrs. Lyman Taylor, both of whom appeared before an early meeting of the committee. Appreciation is recorded for these services.

During the summer Dr. William M. Thomson, because of other obligations, felt it necessary to resign from the committee. This resignation has been accepted with regret.
